

# TABERNACLE OF DAVID MINISTRIES, INTERNATIONAL NEWS

## November Trip to Southeast China

In mid of November, I made a two-week mission trip to **Zhejiang, Hunan, Hainan, and Fujian in Southeast China**, held meetings at 15 places, and ministered to over 2,500 people. Although it was the raining season, my traveling schedule did not get affected. Because several pastors were open to the Holy Spirit, some meetings were held at **Three-Self churches**. Their people were hungry for God, and many in need for healing.

First coworkers picked me up at the airport in a major city to a house meeting in the suburbs. I prayed for people after sharing and many were filled with joy. The next morning, we went to another city in **Zhejiang** and met at a house meeting. Many responded to the preaching in tears. In the evening the Holy Spirit moved more strongly. We held the Sunday service next morning **inside a tent in a field** nearby. Most are laborers from Anhui. I preached and prayed for them. We then rushed to **a meeting hall** in the city with coworkers from Three-Self churches. After I preached, they responded in tears. I then prayed for the sick and many were cancer patients. A terminally ill girl with leukemia **received healing**. I preached with great anointing that evening and **the Holy Spirit moved strongly**.

I was on an overnight train to the next city and then went to the meeting place. I have ministered there many times in the past. When I prayed after preaching, many sisters responded in tears and fell on the floor. **The Presence of God** manifested in the afternoon as we worshipped. I laid hands on **the leaders** and they wept greatly. Then I led them in dancing and praising God with all our might. In the evening I prayed for the sick. The next morning we went to another place in the nearby countryside to train **young coworkers**. They were weeping for deliverance and then filled with the Holy Spirit in the evening meeting. It took the entire morning by car to the next meeting place in a **mountain area**. After preaching, I prayed for the sick and many received healing. I anointed their coworkers in the evening and **the Spirit of joy** filled the place. Some sisters danced in the Spirit. After ministered next morning, we returned to the city to rest. The next morning we met with **the coworkers** in the city. After preaching, they all knelt down and responded in tears. They were all filled with the Holy Spirit in the afternoon.

I was then on the bus to the next city to train some **coworkers and seminary students** the next day. They paid attention to my teaching and responded to prayers in tears, later were filled with the Holy Spirit. In the evening, I laid hands on the students. **The Holy Spirit moved strongly, and the fire of the Spirit** was burning in them. Many spoke in tongues and made a great noise. I preached at the local **Three-Self church**

**the** next morning. I left immediately after preaching to minister at a Three-Self Church in another city with many laborers from Anhui. After preaching and praying for the sick, there was **strong opposition** from a local leader, so I left immediately.

I took the flight to **Hunan** and then arrived at the meeting place in the countryside after midnight. **The coworker meeting** started the next morning. As I prayed for them, they all fell down in weeping. The next day, we prayed according to the region. Just like what happened in the past, that **the fire of Holy Spirit burnt strongly**, and many were rolling on the floors. That evening I was on the flight to a city in **Hainan** for **the coworker meeting** the next day. I gave an alter call after preaching and people **rushed forward** to dedicate themselves to God. I prayed for the sick and anointed the coworkers. **The Presence of God** manifested during the ministry time. We changed to another site the next day. After praying for people according to the region, I led them to praise in dancing. As we worshipped in unison, **the Presence of God** manifested intensely. I preached under heavy anointing. I then handpicked people to receive prayers on the platform and they were **filled with great joy**. I then laid hands on people and the joyous laughter filled the meeting room.

After a day of rest I was on the flight to a city in **Fujian** and then took a van to another city to hold **the coworker meeting** at a **Three-Self church**. I preached strongly and several came forward to **repent in tears**. After I praying for people, not many people showed up in the afternoon. In the evening, I preached to **the local people** and prayed for the sick. I also laid hands on them and anointed the towels. **I led some to the Lord**. **The pastoral staff** was greatly filled with the Holy Spirit. The Sunday service the next morning was in the traditional form. After preaching, I prayed for the people. **Several blind received their sight. The crippled were able to walk**. I was then on the flight to a major city and ministered at a **house church on a nearby island** the next day. After arrived, I didn't feel well physically. As I preached in the afternoon, many were **in tears**. They were filled with **great joy** in the evening. After praying for their coworkers the next morning, I was on the flight back home.
